

Vocational

## Level 2 Brickwork

ACCRINGTON & ROSSENDALE  
**COLLEGE**

### DURATION

1 YEAR

### STUDY TYPE

FULL-TIME

### START DATE

SEPTEMBER 2020

### VOCATIONAL ENTRY REQUIREMENTS

You will need to have completed the Level 1 Brickwork course or a Level 1 equivalent in this area.

## Description

This course covers all the elements of Bricklaying from using handtools and equipment to build solid walls, cavity walls, piers and brick cladding. Alongside the practical tasks, you will learn about materials and equipment, types of wall construction, setting out and thin joint masonry.

You will work in a purpose built workshop that is designed to stretch and challenge all learner's skills and knowledge during training for synoptic end assessments using the very best, up to date resources that the industry has to offer. Theory classes are held in modern classrooms with excellent resources and taught by highly experienced and knowledgeable staff.

Over the year, you will achieve the qualifications by attending college four days per week. (Full time only)

## What you learn:

The course covers all the elements of Brickwork and site work. Other related subjects include:

- Health & Safety
- Setting out
- Communication in construction
- Detached and attached piers

Units include:

- Health, safety & welfare in construction
- Understanding technical information
- Understanding construction technology
- Construct masonry cladding
- Construct solid walling
- Setting out masonry structures
- Construct cavity walling

## How you will be assessed:

Your certificate will be assessed by practical end tests and completion of a workbook.

## What next:

Successful completion of this Level 2 Diploma will lead to the Level 3 Diploma in Brickwork or ideally in to an apprenticeship.
