ambitions
PROGRAMME

Description

This course covers all the elements of painting and decorating from preparing surfaces to industry standards to applying water based and solvent based coatings and hanging high quality wallpapers to ceilings and walls.

You will work in a purpose built workshop that is designed to stretch and challenge all learner's skills and knowledge during training for synoptic end assessments using the very best, up to date resources that the industry has to offer. Theory classes are held in modern classrooms with excellent resources and experienced and knowledgeable staff.

What you learn:

This course covers all elements of painting and decorating and site work.

Units include:

- Apply paint systems by brush and roller
- Apply standard papers to walls and ceilings
- Know how to carry out safe working practices in construction
- Knowledge of building methods and construction technology
- Knowledge of information, qualities and communicating with others
- Prepare surfaces
- Produce specialist decorative finishes.

How you will be assessed:

Your diploma will be assessed by practical synoptic end tests and online end of unit tests.

What next:

Successful completion of the Level 2 study programme could lead to the Level 3 Diploma in Painting and Decorating or ideally into an Apprenticeship.
